Tony Muro

Subject: President's Newsletter (July – September 2019)

Thank you NDIA-RMC members for your great support of our Chapter events held during the last year. In total, we held 22 events in the last 12 months that supported all the major installations within our Chapter's geographical area. I will provide a listing of all the events held this last year, as an attachment to this newsletter, so you can get an appreciation of the value being provided to you. These 22 events don't include the workforce development and STEM related events that supported your children or the children of Soldiers, Sailors, Airmen and Marines that go to school in the area. A few of the noteworthy events we held this quarter include:

- AFSPC Space Futures Workshop (this was the third and final event looking at the Future of Space (60 years into the future).
- Annual IMAGE Golf event, where we teamed with local chapters of AFA and AFCEA and raised over \$23,000 for STEM activities.
- Luncheon Featuring Colonel Russ Teehan, SMC Portfolio Architect, and Mr. Mike Dickey, AFSPC Chief Architect and Director of AFSPC Enterprise Strategy and Architectures Office. We had approximately 130 people attend this lunch and it generated a lot of attention with the government and military leaders... we're receiving requests to speak at our upcoming NDIA luncheons. Please be on the lookout for emails on future luncheons.

As we go into October, and the next quarter, you're already seeing many events that are scheduled. This week, on 2 October, we are teaming with the local chapter for the American Institute of Aeronautics and Astronautics (AIAA) and we're visiting the 90th Space Wing at F.E. Warren AFB in Cheyenne, Wyoming.

We are also very excited about our **18 October Annual NDIA Ball** that will be held at the Hotel Elegante. If you and your significant other would like to attend this amazing event please contact Henry Baird, our ball chairman at (719) 650-4390 or via email at hdbaird@aol.com; or Rayetta Lantzy, our events committee chair at (719) 331-3175 or via email at Rayetta.Lantzy@viavisolutions.com. You can also visit our NDIA-RMC website at <https://ndiarmc.org/2019-ball-information/> to get additional information about this year's Ball. For example, at the NDIA Ball we will present the General James V. Hartinger Award to the 2019 recipient, Mr. Andrew Cox, Director of the Space Security and Defense Program. We will also present Patriot Awards to members of the major military organizations along the Front Range. We are also fortunate to have attend this year's NDIA Ball the President and CEO of NDIA National, General (USAF, Ret) Hawk Carlisle. We look forward to seeing you there.

We will hold our Annual Membership Meeting and Holiday on 10 December at the Pinery. This will be a great event **which** will allow our members to share in holiday cheer with senior military and government leaders from across the region. Please be on the lookout for emails on this, and other events, as well go to our website, <https://ndiarmc.org/>, for information on all the great things going on within the NDIA Rocky Mountain Chapter!

Please feel free to share your feedback and any suggestions for us to improve with me at kevin.mortensen@baesystems.com. We wish all the best for you and your families.

Respectfully,

Kevin "Morty" Mortensen
President
NDIA Rocky Mountain Chapter

DIRECTORS
